Dear Fcc.....I am a Truck Driver. I spend approximetly 60 hours a week in my Truck working. Xm Radio helps keep me alert and the absence of hours of Advertisments keep me attentive with the programs. Is is so sad that local radio stations now have to run so much of their airtime to pay their bills. And the in your face Shock Jocks are sickening to say the least!. The value of XM-radio to us drivers is hard to express in words. Cant we keep somthing as valuable as this service private and intact the way it has been designed to serve us. It is wrong to remove the TRAFFIC AND WEATHER service. We need and DEPEND ON THIS ESSENTIAL SERVICE TO KEEP US SAFE AND THE MOTORING PUBLIC DESERVE AND NEED ALL THE HELP THEY CAN GET. BELIEVE ME I LOG OVER 125.000 MILES A YEAR! And have assisted in my share of fatatility accidents. THE VARIETY AND QUALITY OF XMRADIO SERVICE ARE NOT AVAILABLE ELSEWHERE i gladly pay for this service. REJECT NABs petition 04-160
